

## RAMBLER™ REAR RACK

---

### **Rambler Rear Rack Installation Instructions**

1. Loosen strut hardware assembly.
2. Attach rack to dropout eyelets with M5 screws included - do not tighten yet.
3. Level rack and attach struts to seat stay braze-ons with M5 screws included - do not tighten yet. Use coated clamps (not included) if your frame does not have braze-ons.
4. Once the rack is properly positioned, you may tighten all bolts and nuts.
5. Always check everything for tautness prior to use.
